OBSTRUCTING HEALTH CARE REFORM

(Ms. DELAURO asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. DELAURO. Madam Speaker, let me tell an old story relevant to our current health care debate.

One day, a frog was hopping by a river when he came upon a scorpion. The scorpion asked if the frog would carry him across. The frog said, No, you will sting me. The scorpion replied, No, if I stung you, we would both drown. What is the point of that?

So the frog put the scorpion on his back and waded into the river. Halfway across, he felt a sudden sting and his body went numb. Scorpion, why did you do that? Now we will both die. Said the scorpion, It is my nature.

Today, the health insurance industry refuses to cover basic maternity care for four out of five women, while charging them higher premiums. It kicks women out of hospitals within hours of a mastectomy. No industry in history that profits from a broken system has ever moved to reform that system.

After faking support for health care reform for months, why did the health insurance industry on Monday suddenly try to sting us with a flawed and incomplete cost analysis of a health care plan? The same reason they fight to prevent competition through a strong public option, and the same reason many of my Republican colleagues have done nothing but obstruct reform.

It is their nature.

SUPPORT THE AMTRAK SECURE TRANSPORTATION OF FIREARMS ACT

(Mr. REHBERG asked and was given permission to address the House for 1 minute.)

Mr. REHBERG. There aren't many things that are more important to the foundation of the West than trains and guns. In Montana, both still have a profound impact on our frontier identity. But these pillars of Western culture find themselves on opposite sides of the fence because of Amtrak's ban on the transportation of legal firearms on its trains.

The Second Amendment doesn't derail the right to bear arms if you happen to be on a train. We allow the transportation of firearms in cars and on commercial airlines, but Amtrak's ban on firearms remains in effect, even as it continues to receive massive Federal subsidies.

The Amtrak Secure Transportation of Firearms Act would force Amtrak to end its ban on firearms once and for all. I hope my colleagues will join me

in sponsoring this important legislation, because the Second Amendment protects you whether you travel by horse, plane, truck or train.

SENIORS AND HEALTH CARE REFORM

(Mrs. DAHLKEMPER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. DAHLKEMPER. Madam Speaker, I rise today to support health care reform for our seniors. Our senior citizens deserve reform that will lower their medical expenses and provide the highest quality care available. Our health care reform legislation closes the prescription drug doughnut hole which forces seniors to reduce their prescription drug use, that is, not use lifesaving medications, by an average of 14 percent.

The House's health care reform legislation will help guarantee our seniors access to their doctors by eliminating the 21 percent pay cut doctors are facing for Medicare reimbursements. Without this health care reform, 40 percent of our doctors say they will have to reduce the number of Medicare patients they see. Our seniors deserve better than that. They deserve reform that will keep them in good health at a manageable cost.

I urge my colleagues to support quality health care reform for our Nation's seniors.

RECOGNIZING THE 25TH ANNIVERSARY OF BREAST CANCER AWARENESS MONTH

(Mr. BUCHANAN asked and was given permission to address the House for 1 minute.)

Mr. BUCHANAN. Madam Speaker, I rise today to recognize the 25th anniversary of Breast Cancer Awareness Month. Breast cancer is the leading cause of cancer deaths in women between age 40 and 59. We have all been touched by it with family or friends.

In my home State of Florida, an estimated 12,000 new cases of breast cancer in women will be diagnosed this year. However, if detected early enough, it can be successful in treating the disease.

To this end, I am proud to be a co-sponsor of the EARLY Act, a bill introduced by my fellow Florida colleague, Debbie Wasserman Schultz. She has been a leader. She has got a courageous story that she shares with many. This act, her bill, is an education campaign, it is a public awareness campaign, and it will have a huge difference on women in the future. So I really respect her leadership on this.

In my congressional district, I am proud to say, I thank the leadership. We have been active, our employees and our businesses, over the last 10 years. Working together, it makes a big difference. I would like to just say, we need to continue to educate our families and friends on this bill.

IN MEMORIAM OF U.S. ARMY SERGEANT JOSHUA KIRK

(Ms. SHEA-PORTER asked and was given permission to address the House for 1 minute.)

Ms. SHEA-PORTER. Madam Speaker, it is with a heavy heart that I rise today to honor the life of Sergeant Joshua Kirk. Sergeant Kirk was tragically killed in Afghanistan on October 3.

On Tuesday morning, I attended his funeral at St. Michael's Church in Exeter, New Hampshire. There were so many relatives and friends in attendance for a somber and moving ceremony. His wife, Megan, a native of Exeter, and his daughter, Kensington, have lost a husband and father, and this Nation has lost a hero.

Sergeant Kirk selflessly put himself in harm's way in service to America. He and his family are owed a debt of gratitude.

Sergeant Kirk, a native of Maine, joined the United States Army in 2005. He was on his second tour of duty in Afghanistan when his base was attacked by insurgents on October 3. Kirk and seven of his courageous fellow soldiers, all based out of Fort Carson, were killed during the long battle.

Sergeant Kirk's memory lives on with his wife, daughter, mother and sisters. We will always remember his sacrifice, and theirs, and we are forever grateful for their patriotism and service to America.

AMNESTY ENCOURAGES ILLEGAL IMMIGRATION

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Texas. Madam Speaker, two recent surveys, one of Mexicans and one of Americans, addresses policies that encourage illegal immigration. The first, from Rasmussen, reveals that 56 percent of U.S. voters surveyed believe the policies of the Federal Government encourage people to enter the United States illegally. Also, 64 percent believe law enforcement officers should conduct surprise visits at locations where illegal immigrants seek employment.

The second, from Zogby, reveals that 56 percent of people in Mexico think granting legal status to illegal immigrants in the United States would encourage more illegal immigration to America. Of Mexicans with a member of their immediate household in the United States, two-thirds—two-thirds—said a legalization program would make people they know more likely to go to America illegally.

Madam Speaker, these are more reasons to oppose amnesty for those in the country illegally.

PROVIDING AFFORDABLE HEALTH CARE FOR YOUNG ADULTS

(Mr. TONKO asked and was given permission to address the House for 1
